Dear Mr Anderson:

I thank you for the huge amount of extremely interesting WWII information pertaining to your father and his war.

It arrived with a notification from the Post Office that it had been opened & damaged. The P.O. patched the case and placed all in a plastic bag. It seems O.K. to me

1. DVD: Stalag Luft III Forced March
2. Warriors of Night
3. Memories

I have a busy time coming for my wife (Ak) - coming for a large old farm property, so if I haven't read all the material & be a while before I get a chance to do so. I appreciate your kindness in forwarding all the letters, etc.

I have met a few former POWs & their stories are most bogging. One in particular Flo Smith pilot from Toronto was former 420 Hq and a guest at Stalag Luft III too. Another Harry Hanks I grew up with, he was on that long death march & Al Arnold a school friend also spent a long time as P.O.W.

General The Publishing also had a stay of a P.O.W. at the same time my book came out '91. It was most interesting

I look forward to reading, looking at
the DVD, and getting a better understanding
of life behind bayb wise.
You have done a remarkable lot of
work at considerable cost and effort
on behalf of your father.

Again thanks for sending all this
priceless information. I'll read & study
all of it.

Sincerely,

For Laker.
